aitken COLLEGE In Mind and Spirit

AITKEN COLLEGE EXTENSION PROGRAM

ABOUT ACE

Our College is committed to nurturing the unique talents of every student, empowering them to excel in all areas of their learning. We identify highly able students through a comprehensive approach, including teacher recommendations and academic testing.

For these students, we offer a range of extension, enrichment, and acceleration opportunities designed to satisfy their intellectual curiosity and drive. Our programs delve deeply into core concepts, encouraging students to explore and question ideas, which leads to a profound understanding and significant personal growth.

SELECTION PROCESS

Our College is dedicated to fostering the potential of every student. We identify highly able students through a comprehensive process that considers academic testing, including school-based assessments, PAT test results, teacher recommendations, and other relevant data. This rigorous selection ensures that students who demonstrate outstanding ability are recognised.

Upon selection, parents receive a formal invitation to confirm their child's participation in the ACE programs. These opportunities include a variety of enrichment, extension, and acceleration pathways tailored to cultivate advanced learning and critical thinking. This selection process is repeated annually, guaranteeing equitable opportunities for all students to engage in this enriching experience.

EXTENSION

In class differentiation to extend the skills and knowledge.

ENRICHMENT

Enrichment programs to showcase the skills and knowledge to compete with other schools.

ACCELERATION

Opportunities to accelerate to learn higher level of skills and understanding.
